Dealers & Contractor in Thermal Insulation & Waterproofing Materials

Your Energy Saving Partner

Fiber Glass Mesh :

The thin, continuous and multi fiber filaments are process through reinforcement and woven to form fiberglass fabric.

This fiber glass fabric is light weight and versatile material with high heat resistance.

Characterstics :

Material	Fiber Glass
Type	Mesh
Colour	Silver
Thickness	5 mill
5 Mill Thickness	150 GSM
Type of Weave	Palin

Application :

- Fiber Glass mesh is widely used as a insulation jacketing material in combination of UV Paint.
- Used as a Vapor Barrier
- Gasketing.
- Expansion joints.

Advantage:

- Excellent Insulation Property
- Good Resistance to Acid and Alkali
- Good Corrosion Resistive
- High Mechanical Strength
- Non Hazardous Material
