

SHETH INSULATIONS PVT. LTD.

Dealers & Contractor in Thermal Insulation & Waterproofing Materials

Your Energy Saving Partner

Silicon Coated Fiber Glass Fabric :

High quality fiber glass fabric is coated with flame retardant silicon rubber coating on one side two side. The fabric is superior for many application that requires chemical resistance, water proofing, fire proof, high strength, corrosion resistance and thermal insulation properties.

Application :

- Removable thermal insulation pads and covers
- Fabric Duct work connector
- Fire Doors and Fire & smoke curtains
- Insulation jackets
- Fabric Expansion joints
- Welding/Fire Blankets
- Other Fire control system

Advantage:

- Can withstand temperature up to 230 Deg C
- Fire proof, water repellent, oil resistant
- Excellent resistance to chemical, corrosion, anti-aging and weathering.
- High Mechanical strength, flexible, smooth & Soft.
