

## Sound Insulation MTS Rubber Sheet:

*MTS is a kind of sound insulation rubber sheet with outstanding chemical, sound insulation property and vibration damping property.*

*Standard Size : 2 mm X 1000 mm X 10 mm*

### Application :

- Housing Equipment
- Computers
- Home Appliances
- Automobiles
- Construction Machine
- Agricultural Machine
- Industrial Equipment
- 

### Advantages:

- Fiber Free
- Excellent Sound Insulation Effect : Reduce drainage noise due to two layer structure of sound insulation and sound absorbing material.
- Super Silent
- Easy to Installation
- High Performance
- Superior Sound Insulation Property
- Applicable to bent area because of Flexibility Sheet
