CPRX Compound:

Is a rubberized bituminous adhesive in the form of an emulsion of brushable consistency.

CHARACTERISTICS	
Colour	Brown
Consistency	Brushable
Drying time	24 hrs
Coverage	<ul style="list-style-type: none">On Metal SurfaceOn concrete surface
Dry film thickness Per coat in microns	120
Specific Gravity	1.02
Packing	20 Ltr

Application :

CPRX Compound™ is recommend for the fixing of formed polystyrene (Thermocole), insulex soft boards and fiberglass insulation slab to all type of structures where bituminous adhesive is acceptable.

- It may be used to stick insulation sheets on to concrete, timber or metal and also other insulation sheets.
- It is suitable for use in cold storage also ensure good adhesion to walls and ceiling. It may also be used for sticking Thermocole sections used for the insulation of refrigeration pipe work.
- Specific grade are available for fixing tiles, linoleum, etc.
